NOTE: Information about the cost of this plan (called the premium) will be provided separately. This is only a summary. Important Questions	Answers	Why this Matters:
What is the overall deductible?	**$500** person / **$1000** family	Generally, you must pay all the costs from providers up to the **deductible** amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible.
Are there services covered before you meet your deductible?	Yes. Preventive care services are covered before you meet your deductible.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/.
Are there other deductibles for specific services?	No. There are no other specific deductibles.	You must pay all of the costs for these services up to the specific **deductible** amount before this plan begins to pay for these services.
What is the out-of-pocket limit for this plan?	**$3500** person / **$7000** family	The **out-of-pocket limit** is the most you could pay in a year for covered services. if you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit?	Premiums, balance-billing charges and health care this plan doesn't cover do not apply to this out-of-pocket limit.	Even though you pay these expenses, they don't count toward the **out-of-pocket limit**.
Will you pay less if you use a network provider?	No. You are free to use any provider without penalty.	This plan treats providers the same in determining payment for the same services.
Do you need a referral to see a specialist?	No. You don't need a referral to see a specialist.	You can see the **specialist** you choose without permission from this plan.

All **copayment** and **coinsurance** costs shown in this chart are after your **deductible** has been met, if a **deductible** applies.
