Plan Designs

Large Employers (over 75) – We will work with you to implement a self-funded plan which may include access to the VAULT Captive for added savings for your clients. Governed by ERISA, these plan designs can be customized based on the needs of the client.

Small Employers (2-75) – We have 12 standard plan designs available in a level funded model. Unused claims dollars can be returned to your client at the end of each plan year, or used to realize greater savings in future years.

It is common to see proposals for these plans priced at 85% as compared to rates from fully insured plans.
